

METERING FAUCETS

SPEAKMAN®

METERING FAUCETS

Durability and reliability are built into Speakman Metering Faucets. The lead-free brass construction can be used safely for hand washing and drinking in virtually any public space. Handles activate with less than 5 pounds of force for easy operation and full ADA compliance. The cartridges are also built to last, exceeding 100,000 cycles and offering easy cycle time adjustment.

FEATURES

- Standard flow rate of 5.0 gpm & ability to install 0.35 gpm flow outlet
- Interchangeable temperature indicators for installation flexibility
- ADA compliant vandal-resistant handles ensure easy operation and durability
- Compliant to all applicable US Codes and standards including, MASS & CA specific codes for faucets
- Field adjustable cycle time with the ability to adjust without shutting off the water
- Long-life cartridges ensure years of consistent low maintenance faucet performance

CERTIFICATIONS

- ASME A112.18.1/CSA B125.1 Certified
- NSF 61 Certified
- NSF 372 Certified

SKU	DESCRIPTION
S-5141-LD	4" Centerset
S-5122	Single Post, Single Temperature
S-5125	Wash-Up with Rigid Shank
A-4DP	4" Deck Plate (optional)
A-UCM	Under Counter Mixer
