## HEATED PORTABLE EYEWASH

# GRAVITYFLO HEATED PORTABLE EYEWASH

When we begin designing a product, we often consider how it's going to be used. With portable emergency equipment, we're constantly faced with the challenge of creating products that could potentially be installed in extreme conditions.

With the GravityFlo SE-4330, we made it our mission to design a product that could deliver relief in the harshest environments. Featuring an insulated, freeze-protected jacket, this GravityFlo Eyewash is capable of delivering comfortable, tepid relief for 15 continuous minutes in -10° F weather.

## FEATURES

- Insulated, freeze-protected jacket.
- 20-gallon capacity tank.
- Intuitive, pull-strap activation.
- Comforting, dual spray heads.
- Ergonomic, portable design.
- Highly visible, blue design.
- Gravity fed technology.
- Digital temperature display.

## COMPLIANCE

- ANSI/ISEA Z358.1 Certified.

*With Heat Jacket*

*Without Heat Jacket*

SKU	DESCRIPTION	CONSTRUCTION
SE-4330	GravityFlo Heated Portable Eyewash	Molded polyethylene
SE-4390	Freeze protected jacket	Coated PolyOxford fabric
