GRAVITYFLO EMERGENCY TANK SHOWER

The GravityFlo Emergency Tank shower is unlike anything we've ever engineered. While not exactly portable, this fixture is designed for worksites that lack access to a potable water source.

Its 528-gallon tank provides a substantial amount of water to function well beyond ANSI/ISEA's required 15 continuous minutes. Plus, the GravityFlo Tank Shower features both a shower head and eyewash to deliver complete and total relief.

TANK FEATURES

- Durable, galvanized tubular steel structure
- 528-gallon/2000 liter tank
- 3kw, 230VAC heater
- UL approved

EYEWASH FEATURES

- Dual spray heads
- Stainless steel push handle
- 3.18 GPM at 30 psi

SHOWER FEATURES

- Integral 20 GPM flow regulator
- Powerful, even spray performance
- Drains water after use
