

**SPEAKMAN®**

**SHOWER AND  
TUB SYSTEM  
COMBINATIONS**

**SLV Product Listing**

Customize the shower and  
installation experience to fit  
your needs.

# SPEAKMAN SLV PRODUCT LISTING

**Customization:** Speakman's new shower combination options give you the ability to pair your favorite trim with the valve and connection type of your choice. With three valve types to choose from - pressure-balancing (PB), thermostatic (T) or thermostatic/pressure-balancing (TP) - and a variety of connection types available, you can customize the shower and installation experience to fit your needs.

**Flexibility:** Speakman's new Shower Combination Options give you the ability to order the valve separately from the trim, so each arrives on the project site when you need it. Simply order the valve to be delivered when required for the rough in, and the trim when needed for finishing. Let us help you avoid excess product on project sites.

**Certifications:** IAPMO-certified to ASME A112.18.1/CSA B125.1  
**Five-Year Limited Commercial Warranty**
